

Simplified pricelist of parking in paid parking zones in the city of Prague.

Long-term parking permits allow residents and abonents (legal persons and property owners) to park their cars without limitation in paid parking zones in a parking sector of their permanent residence or firm domicile or property location.

Short-term parking permits purchased using the parking meters or the mobile payment web app [Virtual parking meter](#) also allow visitors to park their cars for a limited period of time in the paid parking zones in the city of Prague.

Updated map of parking sectors is displayed on [this website](#).

The prices of long-term and short-term parking permits are displayed on second page of this document. Prices of short-term parking permits can vary and are always always displayed on the parking meter and in the information section of the Virtual parking meter web app.

Mopeds, single-track motorcycles and motorised bicycles park free of charge in paid parking zones.

Electric vehicles park free of charge on any residents (blue) parking zone and mixed (violet parking zone) [after registration](#).

Vehicles of emergency services and state security services which have been issued a parking permit by the Council of the City of Prague park free of charge on all parking places.

Vehicles of the carsharing operators [approved by the city of Prague](#) can park free of charge in all paid parking zones when not being reserved and/or used. When the shared car is reserved (and used by someone), then the regular visitor parking tariff applies.

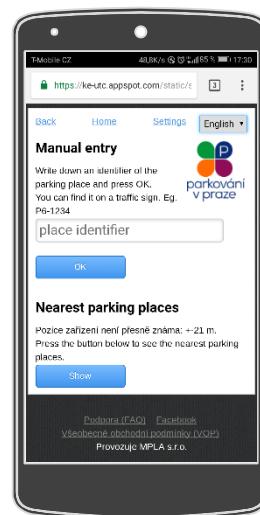

Control and enforcement of paid parking zones regulation is being done by License plate recognition systém. Therefore, all long-term or short-term parking permits require an input of a license plate number of the vehicle.
