

INFORMATION FOR THE DATA SUBJECTS

on personal data processing pursuant to § 18 par. 2 of Act No. 101/2000 Coll., on personal data protection (zákon č. 101/2000 Sb., o ochraně osobních údajů)

PURPOSE OF THE PERSONAL DATA PROCESSING

The purpose of the personal data processing is operation of the paid parking zones in the City of Prague which have been defined by a municipal regulation pursuant to § 23 of Act No. 13/1997 Coll., on the road network (zákon č. 13/1997 Sb., o pozemních komunikacích). Furthermore, the purpose of the personal data processing is monitoring of the paid parking zones in the City of Prague, which consists in scanning of registration plates and recording of registration numbers of vehicles standing in the paid parking zones, in gathering of statistical data about the use of the paid parking zones for analytical purposes, in control of adherence to legal traffic rules of the paid parking zones by linking the registration numbers to valid parking licences (paid parking licences or other forms of parking licences) whereas detected cases of possible offences are reported to the relevant public authorities. The general purpose of the processing is to organize traffic within the city limits and to protect public interests via enforcement of the administrative offence law.

EXTENT OF THE PERSONAL DATA PROCESSING

Name and surname; date of birth; permanent residency address; registration number of the vehicle; ID document number; information on education in the form of academic and other titles; business residency or business establishment address; corporate ID number; address of the real estate in the data subject's ownership; information on the legal title for use of the vehicle (ownership of the vehicle; ID number of the vehicle's registration document; a copy of the vehicle's registration document; identification of the vehicle's owner – name, surname, business name, corporate ID number, permanent residency address; business residency address; relationship to the vehicle's owner); duration of the parking session or parking licence; identification of the relevant section of the paid parking zones in relation to the parking session; ID of the parking session; identification number of the receipt issued in relation to the parking session; information on location of the monitoring vehicle; information on location of the parking section; information on location of the parking ticket machine; information on location of the device; location, date and time of vehicle's parking in the paid parking zones; electronic contact address (email); telephone number; data box ID; payment information (account number; payment/CCS card number; expiration date of the payment/CCS card).

PERSONAL DATA RETENTION PERIOD

The personal data is retained for the following periods:

Categorisation	Extent of the personal data	Retention period
Data necessary to issue, keep evidence of and administrate long-term parking licences	Identification data (name and surname; date of birth; ID document number; information on education in the form of academic and other titles; permanent residency address; business residency or business establishment address; address of the real estate in the data subject's ownership; corporate ID number; registration number of the vehicle; information on the legal title for use of the vehicle (ownership of the vehicle; ID number of the vehicle's registration document; a copy of the vehicle's registration document; identification of the vehicle's owner – name, surname, business name, corporate ID number, permanent residency address; business residency address; relationship to the vehicle's owner); duration of the parking licence; electronic contact address (email); telephone number; data box ID	The data is retained for the duration of the parking licence and for 12 months after the expiry of the relevant parking licence.
Data necessary to issue, keep evidence of and administrate short-term parking licences via a parking ticket machine	Registration number of the vehicle; duration of the parking session; information on location of the parking ticket machine; identification of the relevant section of the paid parking zones; ID of the parking session; identification number of the receipt issued in relation to the parking session; payment information (payment/CCS card number; expiration date of the payment/CCS card)	The data is retained for 60 days of their entry into the central information system of the paid parking zones in the City of Prague.

Data necessary to issue, keep evidence of and administrate short-terms parking licences via virtual parking hours (VPH)	Registration number of the vehicle; duration of the parking session; identification of the relevant section of the paid parking zones; ID of the parking session; electronic contact address (email); telephone number; payment information (payment/CCS card number; expiration date of the payment/CCS card); information on location of the device	The data is retained for 60 days of their entry into the central information system of the paid parking zones in the City of Prague.
Data of the paid parking zones monitoring	Registration number of the vehicle; location (GNSS coordinates, information on location of the monitoring vehicle and of the monitored vehicle) and time of parking of the monitored vehicle; ; identification of the relevant section of the paid parking zones in relation to the parking session; duration of the parking session; ID of the parking session; information on existence of a long-term parking licence	<p>The data which is not a basis for a possible administrative offence against the paid parking zone regulation is retained for 7 days of their entry into the central information system of the paid parking zones in the City of Prague.</p> <p>The data which is a basis for a possible administrative offence against the paid parking zone regulation is reported to the Prague Municipal Police (Městská policie hlavního města Prahy). If the data is marked by the Prague Municipal Police as not an administrative offence, it is deleted once a day.</p>

DATA SUBJECT CATEGORIES

Persons applying for a parking licence (parking session); persons with a valid parking licence (parking session); owners, vehicle operators and other users of vehicles parking in the paid parking zones without a valid parking licence (parking session).

DATA RECIPIENTS CATEGORIES

Recipients to whom the personal data controller discloses the personal data are following:

- personal data processors, in particular, Technická správa komunikací hl. m. Prahy, a.s., and other persons processing the personal data on the basis of a personal data processing contract concluded with the controller or with a processor;

- Prague Municipal Police (Městská policie hlavního města Prahy);
- other persons to whom the personal data controller is obliged to disclose the personal data based on an obligation prescribed by the law.
